1. **Identification**

   **Product Identifier:** ALFENTA® (alfentanil hydrochloride injection) CII

   **Synonyms:** N-[1-[2-(4-ethyl-4,5-dihydro-5-oxo-1H-tetrazol-1-yl)ethyl]-4-(methoxymethyl)-4-piperidinyl]-N-phenylpropanamide monohydrochloride (1:1).

   **National Drug Code (NDC):**
   - 17478-067-02
   - 17478-067-05
   - 17478-067-10
   - 17478-067-20

   **Recommended Use:** Pharmaceutical.

   **Company:** Akorn, Inc.
   - 1925 West Field Court, Suite 300
   - Lake Forest, Illinois 60045

   **Contact Telephone:** 1-800-932-5676

   **E mail:** customer.service@akorn.com

   **Emergency Phone Number:** CHEMTREC 1-800-424-9300 (U.S. and Canada)

2. **Hazard(s) Identification**

   **Physical Hazards:** Not classifiable.

   **Health Hazards:** Specific target organ toxicity – single exposure (narcotic effects) Category 3

   **Symbol(s):**

   **Signal Word:** Warning.

   **Hazard Statement(s):**
   - H336 May cause drowsiness or dizziness.

   **Precautionary Statement(s):**
   - P261 Do not breathe mist/vapours/spray.
   - P271 Use in a well ventilated area.
   - P304 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
   - P312 Call a POISON CENTER or doctor/physician if you feel unwell.
   - P405 Store locked up.
SDS: ALFENTA®
(alfentanil hydrochloride injection) CII

P501 Dispose of contents/container in accordance with local/provincial/federal regulations.

Hazards Not Otherwise Classified: Not classifiable.

Supplementary Information: Alfentanil Hydrochloride is a potent fast-acting opioid analgesic and anesthetic. Alfentanil is about 25 times more potent than morphine and about ¼ as potent as fentanyl. Alfentanil can produce drug dependence. In the workplace, this material should be considered a potent drug and potentially irritating to the eyes and respiratory tract. See product label and/or product insert for additional information.

*The formula also contains Sodium Chloride (0.9%); and Water for Injection.

4. **First Aid Measures**

**Ingestion:**
If a person vomits place them in the recovery position so that vomit will not reenter the mouth and throat. Rinse mouth with water. If swallowed, seek medical advice immediately and show the container or label. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

**Eye Contact:**
Remove from source of exposure. Flush with copious amounts of water for at least 15 minutes. If irritation persists or signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary. Ensure that medical personnel are aware of the material(s) involved and are aware of precautions to protect themselves.

**Skin Contact:**
Remove from source of exposure. Remove and isolate contaminated clothing and shoes. Flush with copious amounts of water for at least 20 minutes. Use soap. If irritation persists or signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary. Ensure that medical personnel are aware of the material(s) involved and are aware of precautions to protect themselves.
Inhalation: Remove from source of exposure. Move individual(s) to fresh air. Give artificial respiration if individual(s) are not breathing and call emergency medical service. If signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary. Ensure that medical personnel are aware of the material(s) involved and are aware of precautions to protect themselves.

Protection of First-Aiders: Use personal protective equipment (see section 8).

Signs and Symptoms: Muscle rigidity; fatigue; sedation; dizziness; mood alterations; restlessness; slow or irregular heart rate; pinpoint pupils; nausea; vomiting; constipation; decreased or difficult urination; sweating; flushing; cold and clammy skin; itching; rash; respiratory depression; hypothermia; decreased mental status; seizures. High doses may cause coma, respiratory arrest, cardiac arrest or death. May cause hypersensitivity.

Medical Conditions Aggravated by Exposure: Pre-existing hypersensitivity any components of this product; liver or kidney dysfunction; hypothyroidism; seizure disorders; asthma or other respiratory disorders; heart arrhythmias; acute alcoholism or history of drug abuse or dependence; gallbladder disorders; inflammatory bowel disease; urinary disorders; low blood pressure; gastrointestinal obstruction; Addison’s disease.

Notes to Physician: Treat supportively and symptomatically.

5. Firefighting Measures

Suitable Extinguishing Media: Use extinguishing media for type of surrounding fire.

Unsuitable Extinguishing Media: Not determined.

Specific Hazards Arising from the Chemical:

Hazardous Combustion Products: These products include carbon oxides, nitrogen oxides, hydrogen chloride and other hazardous products of combustion.

Other Specific Hazards: Closed containers may explode from the heat of fire.

Special Protective Equipment/Precautions for Firefighters: Wear self-contained breathing apparatus and full and protective gear.

6. Accidental Release Measures

Personal Precautions: Keep unnecessary personnel away. Do not touch damaged containers or spilled material unless wearing appropriate personal protective equipment and clothing.

Personal Protective Equipment: For personal protection see section 8.
Methods for Cleaning Up: Dike ahead of liquid spills for later disposal. Absorb with inert material. Recover product and place in an appropriate container for disposal in accordance with local, state and federal regulations.

Environmental Precautions: Contain material and prevent release to basements, confined spaces, waterways or soil.

Reference to Other Sections: Refer to Sections 8, 12 and 13 for further information.

7. Handling and Storage

Precautions for Safe Handling: Handle in accordance with product label and/or product insert information. Handle in accordance with good industrial hygiene and safety practices.

Conditions for Safe Storage, Including Any Incompatibilities: Store according to label and/or product insert information. Store away from oxidizers, acids, and bases.

Specific End Use: Pharmaceuticals.

8. Exposure Controls/Personal Protection

Occupational Exposure Guidelines:

<table>
<thead>
<tr>
<th>Common or Chemical Name</th>
<th>Employee Exposure Limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alfentanil HCl</td>
<td>OEL*: 1 μg/m³, 8 Hour TWA, Skin; OEL*: 3 μg/m³, 8 Hour TWA, Skin; OEL*: 9 μg/m³, STEL, Skin</td>
</tr>
</tbody>
</table>

* Occupational Exposure Levels (OELs) have been established by private industry.

Engineering Controls: Engineering controls should be used as the primary means to control exposures.

Respiratory Protection: Where respirators are deemed necessary to reduce or control occupational exposures, use NIOSH-approved respiratory protection and have an effective respirator program in place (applicable U.S. regulation OSHA 29 CFR 1910.134).

Eyes Protection: Safety glasses with side shields are recommended. Face shields or goggles may be required if splash potential exists or if corrosive materials are present. Approved eye protection (e.g., bearing the ANSI Z87 or CSA stamp) is preferred. Maintain eyewash facilities in the work area.

Hand Protection: Chemically compatible gloves. For handling solutions, ensure that the glove material is protective against the solvent being used. Use handling practices that minimize direct hand contact. Employees who are sensitive to natural rubber (latex) should use nitrile or other synthetic
non-latex gloves. Use of powdered latex gloves should be avoided due to the risk of latex allergy.

Skin Protection: Wear protective laboratory coat, apron, or disposable garment when working with large quantities.

9. **Physical and Chemical Properties**

- **Physical State/Color:** Liquid/Clear.
- **Odor:** No data available.
- **Odor Threshold:** No data available.
- **pH:** 4 to 6.
- **Melting Point:** No data available.
- **Freezing Point:** No data available.
- **Boiling Point:** No data available.
- **Flash Point:** No data available.
- **Evaporation Rate:** No data available.
- **Flammability (solid, gas):** No data available.
- **Flammability Limit - Lower:** No data available.
- **Flammability Limit - Upper:** No data available.
- **Vapor Pressure:** No data available.
- **Vapor Density:** No data available.
- **Relative Density:** No data available.
- **Solubility(ies):** Miscible in water.
- **Partition Coefficient (n-octanol/water):** 128 at pH=7.4.
- **Auto-Ignition Temperature:** No data available.
- **Decomposition Temperature:** No data available.
- **Viscosity:** No data available.

10. **Stability and Reactivity**

- **Reactivity:** No data available.
- **Chemical Stability:** Stable under recommended storage conditions.
- **Possibility of Hazardous Reactions:** No data available.
- **Conditions to Avoid (e.g., static discharge, shock, or vibration):** Light.
- **Incompatible Materials:** Oxidizers, acids, bases.
- **Hazardous Decomposition Products:** No data available.

11. **Toxicological Information**

**Information on the Likely Routes of Exposure:**

- **Inhalation:** May be harmful if inhaled. May cause respiratory tract irritation.
- **Ingestion:** May be harmful if swallowed.
Skin Contact: May be harmful if absorbed through the skin. May cause skin irritation.

Eye Contact: May cause eye irritation.

Symptoms Related to the Physical, Chemical and Toxicological Characteristics: See Section 4. To the best of our knowledge, the chemical, physical and toxicological properties have not been thoroughly investigated.

Delayed and Immediate Effects of Exposure: No data available.

Acute Toxicity – Oral: No data available.
Acute Toxicity – Dermal: No data available.
Acute Toxicity – Inhalation: No data available.
Corrosivity: No data available.
Dermal Irritation: No data available.
Eye Irritation: No data available.
Sensitization: No data available.
Toxicokinetics/Metabolism: No data available.

Target Organ Effects: Based on clinical use, possible target organs include the central and peripheral nervous systems and the cardiovascular system.

Reproductive Effects: No data available.
Carcinogenicity: No data available.

National Toxicology Program (NTP): Not considered to be a carcinogen.
International Agency for Research on Cancer (IARC): Not considered to be a carcinogen.
Occupational Safety and Health Administration (OSHA): Not considered to be a carcinogen.

Mutagenicity: No data available.
Aspiration Hazard: No data available.

12. Ecological Information

Ecotoxicity

Aquatic: No data available.
Terrestrial: No data available.
Persistence and Degradability: No data available.
Bioaccumulative Potential: No data available.
Mobility in Soil: No data available.
Mobility in Environment: No data available.
Other Adverse Effects: No data available.

13. Disposal Considerations

Dispose of all waste in accordance with Federal, State and Local regulations.
14. **Transport Information**

UN Number: Not applicable.
UN Proper Shipping Name: Not applicable.
Transport Hazard Class(es): Not applicable.
Packing Group: Not applicable.

Department of Transportation: Not regulated as a hazardous material.

International Air Transport Association (IATA): Not regulated as a dangerous good.

International Maritime Dangerous Good (IMDG): Not regulated as a dangerous good.

15. **Regulatory Information**

**US Federal Regulations:**

Toxic Substance Control Act (TSCA): This product is a drug regulated by the Food and Drug Administration (FDA), and is not regulated by TSCA.

CERCLA Hazardous Substance and Reportable Quantity: Not listed.

SARA 313: Not listed.
SARA 302: Not listed.

Drug Enforcement Agency: Schedule II.

**State Regulations**

Massachusetts: Not listed.
New Jersey: Not listed.
Pennsylvania: Not listed.
California Proposition 65: Not listed.

16. **Other Information**

NFPA Rating:
- Health: 4
- Flammability: 0
- Reactivity: 0

**Revision Date:** 06/15/2015

**Revision Number:** 1

Disclaimer: This document is generated to distribute health, safety and environmental data. It is not a specification sheet and none of the displayed data should be construed as a specification. Information on this SDS sheet was obtained from sources which we believe are reliable, and we believe that the information is complete and accurate. However, the information is provided without any warranty, express or implied, regarding its correctness. Some of the information presented and conclusions drawn are from sources other than direct test data of the substance.
