## Drug Facts

### Active ingredients (in each 5mL teaspoonful) Purposes

Codeine Phosphate, USP 10 mg.....Cough Suppressant  
Guaifenesin, USP 100 mg.....Expectorant

**Use** • temporarily relieves cough due to minor throat and bronchial irritations as may occur with the common cold or inhaled irritants  
• helps loosen phlegm (mucus) and thin bronchial secretions to make cough more productive

### Warnings

**Do not use** • in adults and children who have a chronic pulmonary disease or shortness of breath, or children who are taking other drugs, unless directed by a doctor.

**Ask a doctor before use if you have** • a cough with too much phlegm (mucus) • a persistent or chronic cough as occurs with smoking, asthma, chronic bronchitis, or emphysema

**Ask a doctor or pharmacist before use if you are** taking sedatives, tranquilizers and drugs used for depression, especially monoamine oxidase inhibitors (MAOIs). These combinations may cause greater sedation (drowsiness) than is caused by the product used alone.

**Stop use and ask a doctor if** • cough lasts for more than 7 days, comes back, or occurs with fever, rash or headache that lasts. These can be signs of a serious condition. • may cause or aggravate constipation

**If pregnant or breast-feeding**, ask a health professional before use. **Keep out of reach of children.** In case of accidental overdose, seek professional assistance or contact a Poison Control Center immediately. • Use of codeine-containing preparation is not recommended for children under 2 years of age ▶
